

Recent CSES Student Internships:

Benjamin Swears worked on a special problems topic this summer under Dr. Jerrod Hardke at the **Rice Research and Extension Center in Stuttgart.**

Abigail Norsworthy is a summer intern for **John Deere's corn and soybean** team in Des Moines Iowa! She'll be traveling the Midwest (currently traveling to Nebraska) to get insight on new technologies emerging in these cash crops.

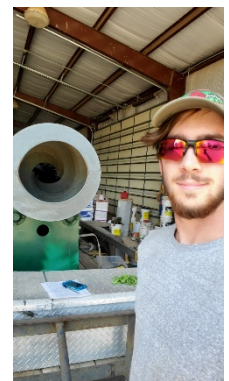

Sohn Sutter is a Crop Science major with a minor in Integrated Pest Management. He was a product research and development intern at **Valent USA** in Leland, MS.

Landon Sandage worked at **Sandage Farms** in Keo, AR, during summer 2020. He was responsible for driving the custom spray applicator (pictured).

Emma Armendariz interned with the **City of Fayetteville's Recycling and Trash Division.** She worked on projects centered around education and incorporating recycling and composting programs into local schools, businesses, and apartments.

Tucker Higgins interned at **Razorback Farms in Springdale.** His job was to scout fields and grade beans to project a harvest date and estimated yield for the bean harvest. He also worked with corn, performing moisture testing, and projecting a harvest date and yield.

Trevor Voisin interned with **the Fish and Wildlife Service in North Carolina** at the Pocosin Lakes Refuge. He helped with maintenance of the buildings and water control structures. He also helped measure and maintain water levels of the Pocosin Refuge.

Evan Buckner participated in the **2020 Multicultural Fellows Program** with Kansas State University Research and Extension. He worked with Dr. Dille in the Dept of Agronomy in weed ecology, analyzing the water usage of various weeds.
