**NOTE:** As a general rule, only plumbers from the Physical Plant should close main line valves in emergency situations. **All affected users should be notified BEFORE main line valves are closed.** Failure to do so could result in extensive damage and, in some cases, could create hazardous conditions.

**VI. In general, Team Members shall:**

- A. Using their judgment, take control in emergency situations, call for assistance as needed and relinquish control to qualified individuals when appropriate.
- B. Assume responsibility for detecting and reporting hazardous conditions to the Team Chairperson.

**NOTE:** Blacktop drives on AAREC comprise State Hwy #812. Request for repairs to eliminate hazards will be forwarded to the district engineer in Fort Smith.

- C. Assume responsibility for detecting and reporting malicious and/or belligerent behavior to Public Safety.

**NOTE:** Generally speaking, team members shall report aggressive behavior and then observe without aggression unless it is necessary to intervene to prevent bodily injury.

- D. Do not be a hero, call for help from appropriate emergency personnel.
